Come see the 158-acre property that was permanently preserved through the Town of New Hartford's open space program in 2006 with technical assistance from the Trust for Public Land, a state grant, local taxpayer funds and the New Hartford Land Trust's (NHLT) Campaign for Jones Mountain. Walk the old carriage roads lined with culverts built by Irish stonemasons long ago and catch great views at the top.

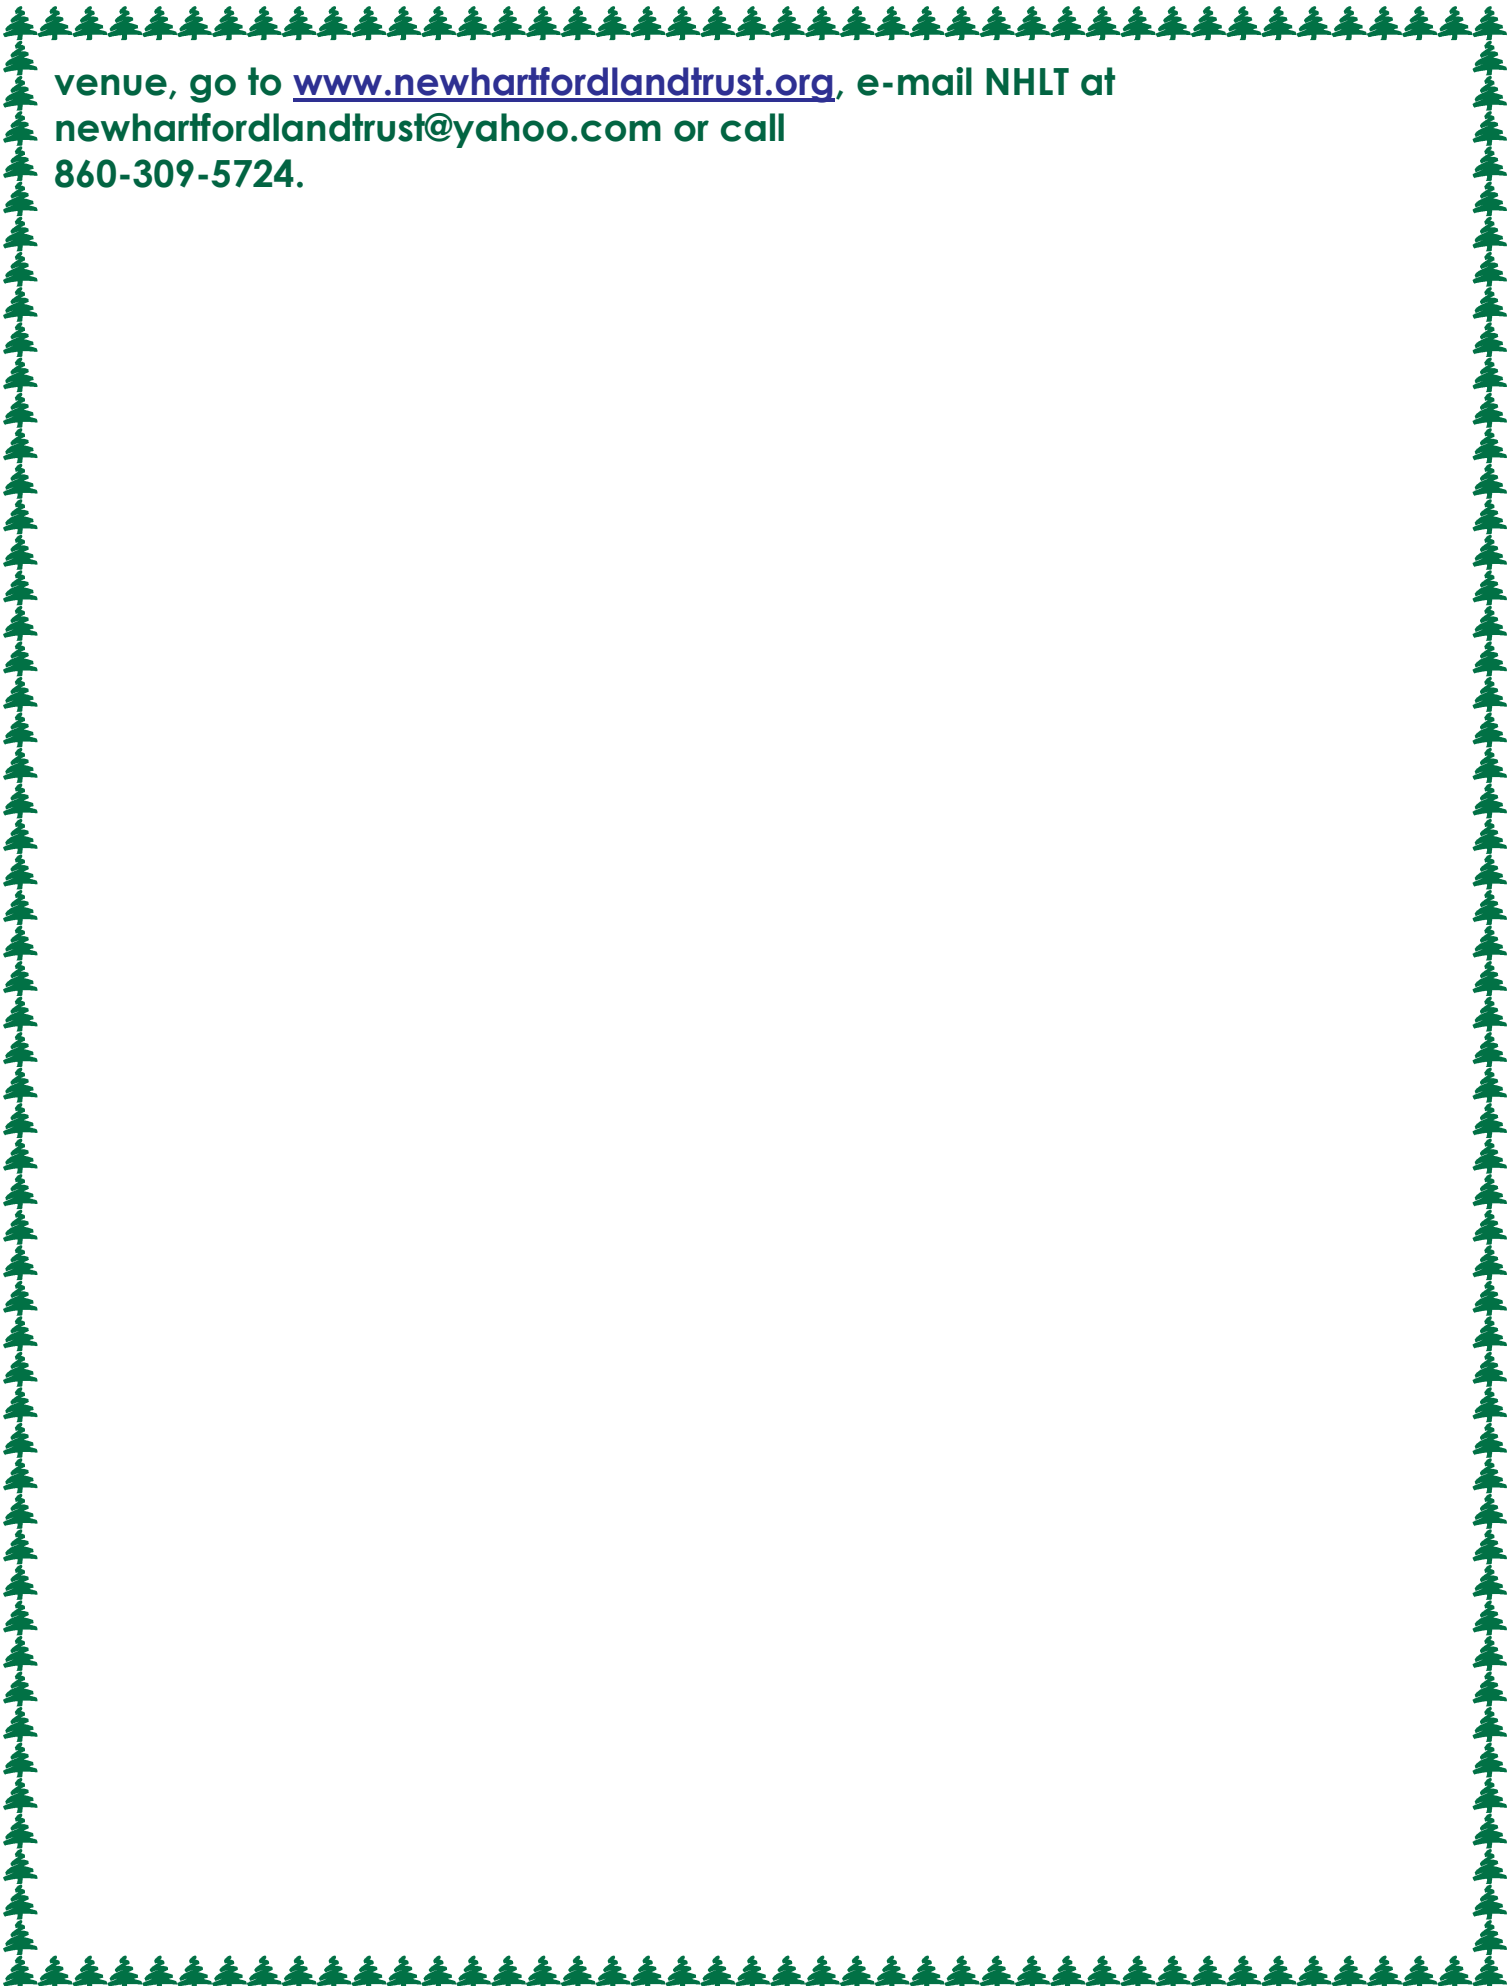

The hike leaders will talk about the Jones Family history and stewardship of the property and their decision to permanently protect the land. They will also highlight work done since the purchase.
